## Transition Notice: Select 03/53-Series Interactive Displays

### Product Information

As part of the major upgrade to Elo's large format interactive displays, the 3203L, 4303L, 5053L and 5553L product lines are being discontinued and transitioned to the newly announced 3204L, 4304L, 5054L and 5554L. The new interactive displays offer a significant cost savings over the prior generation with features that include anti-friction or anti-glare glass, VESA mounting for the Elo Backpack 4, select mini PC's and BrightSign players with advanced cable management, power brick mounting and power passthrough. Additionally, this next generation includes remote device management capabilities enabled with EloView, Crestron or your preferred 3<sup>rd</sup> party MDM. While we work to minimize product changes, they are needed from time to time. When this occurs, we try to offer a suitable replacement product with equal or better specifications.

### Inventory and Ordering Information

- Remaining inventory will be available on a first-come, first-served basis.
- Last time buy orders will be accepted through **October 1st, 2024** with last time ship to be completed by **January 1st, 2025**.
- Please check with your distribution partner(s) for their current inventory levels.
- Recommended replacement parts may not be electrically or mechanically identical to the discontinued product.
