## Transition Notice: E-Series 2 Touchcomputer

### Product Information

Please be advised that Intel has discontinued the Gemini Lake J4125 CPU included in the E-Series 2. As a result, the E-Series 2 will be discontinued and transitioned to the 15.6" EloPOS Touchcomputer with Intel Coffee Lake G4900T CPU. While we work to minimize product changes, they are needed from time to time. When this occurs, we try to offer a suitable replacement product with equal or better specifications.

### Inventory and Ordering Information

- Remaining inventory will be available on a first-come first-served.
- Please consult with your sales representative when ordering the E-Series 2 for applications requiring models configured differently than the replacements referenced in the table below.
