

### **Executive Summary**

Due to newer firmware being used in the Elo 2D Barcode Scanners, the Presentation Mode barcode in the current documentation will not work properly. A new Presentation Mode barcode has been created but not yet updated in the documentation. This Tech Bulletin provides the new barcode and steps for using.

### **Steps**

1. To activate Presentation Mode on the Elo 2D scanner do the following:
  - a. Use a ballpoint pen or other small device to press the manual scan button that is located on top of the scanner.

- b. Press and hold the manual scan button while scanning the below barcode.

- c. The 2D barcode scanner should now be in Presentation Mode.
