Product Management Bulletin

Number: 000-758

Transition Notice: 2201L IntelliTouch® (SAW) Touchscreen Monitors

Product Information

Please be advised that the 2201L IntelliTouch® (SAW) touchscreen monitors are being discontinued and transitioned to the TouchPro® (PCAP) 2202L, offering the same optical clarity with more features, including Elo Edge Connect™. Elo's robust TouchPro PCAP touchscreens outperform SAW with highly sensitive multi-touch that is not affected by surface contaminants. While we work to minimize product changes, product refreshes are needed from time to time to keep the product current with new technology and features. When this occurs, we try to offer a suitable replacement product with equal or better specifications. Please see the table below for the suggested replacement.

Inventory and Last Time Order

- Please note that remaining inventory will be available on a first-come first-served basis.
- Elo will accept orders through March 25th, 2022 with last time shipments to be confirmed based on lead-times.
- Please consult with your sales representative for specific part numbers and details.
- Recommended replacement part may not be electrically or mechanically identical to the discontinued product.
