## Transition Notice: EloPOS™ for Windows CFD Mounting Kit

### Product Information

Elo has restructured the EloPOS customer facing display mounting kit from a single kit solution to a two kit solution. Previously, when ordering the mounting kit, the display mount (E835969) kit shipped with the authorized interconnecting USB-C to USB-C cable (E969524). To comply with the requirements from customs, all future orders will require the mounting hardware (E835969) and the interconnect cable (E969524) to be ordered separately. Please note that all related pricing has been adjusted for this change and is current as of the March price list.
