## Transition Notice: I-Series 2.0 for Windows Celeron Models

### Product Information

Elo is issuing an update to the PMB to extend last time buy. Please be advised that Intel has discontinued the J4125 CPU included in the I-Series 2.0 Celeron models. As a result, the affected models will be discontinued and transitioned to Intel's G4900T Coffee Lake Celeron processor. While we work to minimize product changes, they are needed from time to time. When this occurs, we try to offer a suitable replacement product with equal or better specifications.

### Inventory and Ordering Information

- ☐ Remaining inventory will be available on a first-come first-served basis with last time buys to be completed by **March 31, 2024**. Last time shipments based on inventory availability.
- ☐ Please consult with your sales representative when ordering the I-Series 2.0 units for applications requiring models configured differently than those included in the tables below.
