Product Management Bulletin

Number: 000-800

Transition Notice: 6553L Interactive Display, ECMG4 & Select Accessories

Product Information

As part of the major upgrade to Elo's large format interactive displays, the 6553L product line is being discontinued and transitioned to the newly announced 6554L. With this transition, the ECMG4 and select accessories are being discontinued as well.

The new interactive displays offer a significant cost savings over the prior generation with features that include anti-friction/anti-glare glass, remote device management, Elo Backpack 4.0 and Brightsign player compatibility and upgraded cable mounting capability/passthrough. While we work to minimize product changes, they are needed from time to time. When this occurs, we try to offer a suitable replacement product with equal or better specifications.

Inventory and Ordering Information

- Remaining inventory will be available on a first-come, first-served basis.
- Last time buy orders will be accepted through **March 1st, 2025** with last time ship to be completed by **June 1st, 2025**.
- Please check with your distribution partner(s) for their current inventory levels.
- Recommended replacement parts may not be electrically or mechanically identical to the discontinued product.
