Digital signage

KDS

Self-Service Kiosk

Automation Control

Turn on and off whenever you need.

Whether the Elo Backpack is in a kiosk or mounted behind a display, you can easily turn the device on or off remotely.

Small footprint for compact spaces.

Purpose-built to accommodate compact spaces, the Elo Backpack offers a small footprint in both size and weight.

Universal VESA mount.

Easily secure to any counter or in a kiosk in a snap with the built-in VESA mount.

Connectivity for all of your accessories.

The Elo Backpack covers all your connectivity needs with:

HDMI

Wi-Fi

Ethernet

USB-C

4x USB

Bluetooth

Display Port

The perfect pairing for any touchmonitor.

Available in Windows 11 and No-OS versions, the Elo Backpack turns any Elo touchscreen—from 7–65 inches—into a flexible, fully powered interactive solution.

Smarter performance. Expanded possibilities.

The Elo Backpack combines Intel® processing power with integrated AI acceleration to tackle today's workloads and prepare for tomorrow's demands. Delivering reliable performance and up to 32 pTOPS of AI capability, it's built to help businesses run smarter, faster, and more efficiently.
