## Transition Notice: Linux Debian Gen 1 Products

### Product Information

Please be advised that the Linux Debian Gen 1 product lines including I-Series, I-Series Slate and Backpack™, are being discontinued and will transition to upgraded Linux Ubuntu Gen 2 models in late fall 2026. The new models will feature a powerful Qualcomm 6490 processor, support from Linux Ubuntu 24.04 and WiFi 6E connectivity. While we work to minimize product changes, they are needed from time to time. When this occurs, we try to offer a suitable replacement product with equal or better specifications.

### Inventory and Ordering Information

- Remaining inventory will be available on a first-come, first-served basis.
- Last time buy orders will be accepted through **September 1st, 2026** with last time ship to be completed by **January 1st, 2027**.
- Please check with your distribution partner(s) for their current inventory levels.
- Recommended replacement parts may not be electrically or mechanically identical to the discontinued product.
- Please consult with your sales representative for specific part numbers, details and sample availability.
